

This group works to promote the spiritual development within the church by furthering the growth and development of the Parish. This is done through promoting lay participation in the act of worship, having people to greet and welcome newcomers as well as regular attendees, preparing for special services, ecumenical outreach, prayer and study. It helps to provide leadership, materials and equipment for the Sunday School and other Christian Education programs, as well as seeking to identify and serve the needs of the parish and the wider community.
